Parking at St Paul's Panthers Matches

We are sorry to share that the usual car park for our Pixham Lane grounds is still not available this season due to redevelopment work underway locally.

There is **NO PARKING** on Pixham lane, please respect the no parking signs and our parking marshalls (vounteers!). Your car is at risk of being towed away and we will also put us in breach of our tenancy agreement, **putting at risk the future of the whole football club.**

As a result of this, the best option for parking is at Dorking Station (Post Code RH4 1TF).

- Our pitches are a 10- minute walk from the Car Park – please see the route below.
- There is a £4.10 fee for Saturday parking & there are electric vehicle charge points.
- Do not park in spaces marked with yellow paint – they are for 'premium' ticket holders.
- Payment is via the Apcoa Parking App which is available on the App Store and Google Play.
- The Car Park location code on the Apcoa App is **1202.**
- There is also a ScanPay option on a sign post in the car park, or via the QR Code at the top, if on the day you do not have time to download the App.
- Please do share lifts when you can.
- The walking route can be seen here and the A24 footpath can be reached through the station car park hedge gate.
- There are other parking options in the area including Denbies Vineyard (10 min walk) & Stepping Stones car park (National Trust). If you choose to park here **PLEASE be extra careful** alongside & crossing the main A24 road and always supervise children
